“ I was pleasantly surprised at how easy it was to travel to Asheville! My connections were well-timed and convenient. My experience flying home was just as smooth. This was the easiest, lowest-stress trip I've had in ages, and I can't wait to do it again.

JUST WHAT YOU'D EXPECT FROM A WORLD-CLASS MEETING DESTINATION:

AN INVITING CLIMATE

ASHEVILLE IS A FOUR SEASON DESTINATION. THINK COMFORTABLE SUMMERS, CRISP AUTUMNS, MILD WINTERS AND GLORIOUS SPRINGS. IN FACT, ASHEVILLE'S TEMPERATE CLIMATE AND CLEAN MOUNTAIN AIR HAVE BEEN A FEATURED ATTRACTION FOR GENERATIONS OF VISITORS.

A HIGHER LEVEL OF COMFORT

Ringed by the highest peaks in the east, Asheville sits on a plain atop the Blue Ridge Mountains at an altitude of 2,200 feet. This elevation difference over the piedmont of North Carolina and the low country of South Carolina provides us with a distinct climate advantage.

Warm summer days (which rarely top 85 degrees) invariably give way to **COOL**, refreshing evening temperatures.

Thanks to altitude and geology, our spectacular fall **FOLIAGE** lasts from September to mid-November.

In winter, Asheville is **PROTECTED** by the surrounding mountains from extreme weather. In fact, The Weather Channel named Asheville one of "America's Safest Weather Cities."

Spring comes early in the mountains and, like fall, is long lasting: from early March to late May. Dogwoods, azaleas and mountain laurel take center stage in this symphony of **COLOR.**

"My travel experience to and from Asheville was a complete joy. The Asheville airport was wonderful. Professional staff, clean, organized and so convenient to get around. I have to say, it was my best airport experience ever!"
